UIB CONSTRUCTION & ENGINEERING

THE CONSTRUCTION & ENGINEERING INDUSTRY

The construction and heavy engineering industry is complex and capital intensive. It involves a high level of inter-dependency and co-operation between specialist organisations and partners, often with highly detailed contractual relationships.

UIB CONSTRUCTION & ENGINEERING DIVISION

UIB Construction & Engineering has an international reputation for technical skill and integrity both for analysing, designing and placing comprehensive risk solutions for construction and engineering projects, and for working with contractors, principals, lenders and other parties involved in projects.

The division is committed to transparency and professionalism in all aspects of our business, enabling you to deal with us with absolute confidence.

Our team of specialists has a wealth of experience and a comprehensive understanding of the industry's needs, plus the sensitivity to help with the different requirements of project parties.

The division is dedicated to delivering first class service and cost effective solutions to our clients, whether international or domestic, contractors or industry clients, and whether projects involve oil, gas, steel or other heavy industry projects, large or medium sized civil engineering works.

THE DIVISION ADDITIONALLY PROVIDES

- Construction Insurance training seminars for clients and their respective employees (normally held at the UIB London offices)
- Construction Insurance presentations for International Conferences

“Personal client service and global risk solutions are at the heart of our offering”
