UIB ENERGY UPSTREAM

Energy companies operate in a high risk world, often in the most hostile environments. There is increasing pressure to deliver low emission products and investment in technological developments while facing the constant challenge of maintaining profitability against the backdrop of volatile oil prices.

Appropriate risk management and secure, cost-effective insurance coverage are key components for stability and success. UIB Energy has developed a worldwide reputation for technical skill and integrity when acting for energy project partners to analyse, design and place comprehensive risk solutions.

ABOUT UIB ENERGY

The UIB Energy Division consists of two separate servicing teams split into downstream / power generation business and upstream business. The UIB Upstream Energy division handles:

- Exploration, development, distribution and construction phases for oil and gas
- Pipelines
- Platforms
- Rigs both onshore and offshore
- Mobile Drilling Units
- Control of Well
- Down-hole equipment

A GLOBAL PARTNER

The size and scale of upstream energy and power generation projects require an insurance broker with global capabilities. UIB Energy, with an international network of offices and strong relationships with insurers worldwide, draws on many years of experience to address complex technical risk issues and develop cost-effective risk and insurance solutions.

To supplement our expertise, our primary technical risk surveys are carried out by Engineering Risk Consultants (ERC), a leading international energy risk surveyor.

COVERAGE PLACED

The Upstream Energy team's technical knowledge and 'on the ground' local expertise means that UIB has developed innovative risks solutions for energy risks throughout the world, including:

- All Risks of Physical Damage
- Natural Catastrophe
- War / Terrorism / Strikes, Riots and Civil Commotion
- Time Element / Business Interruption / Contingent Business Interruption
- Operators Extra Expense – on and offshore
- Removal of Wreck – Sue and Labour
- Liability / Casualty
- Construction / Minor Works
- Transit / Storage
- Machinery Breakdown
- Platform de-commissioning and removal
- Seepage & Pollution – sudden & accidental or gradual occurrence

“Personal client service and global risk solutions are at the heart of our offering”

WHY APPOINT UIB ENERGY?

By appointing UIB Energy Division as your specialist upstream risk and insurance broker, you will receive:

- Up-to-the-minute impartial advice on energy insurance developments globally
- Personal service from a dedicated team who understand the complexity and requirements of upstream operating risks led by a senior account director
- Risk-specific programme design and development, including multi-stage project risk packages
- Pro-active in house claims management and specialist support
- A partner who is committed to supporting your operations

ABOUT UIB

Founded in 1987, United Insurance Brokers (UIB) is an independent, international insurance and reinsurance Lloyd's broker with headquarters in London and offices worldwide.

UIB is a multicultural, multilingual global broker, sensitive to both regional and local issues. Our global reach provides clients with insurance and risk management expertise in more than 110 countries through our network of international offices and membership of UNiBA Partners (www.uniba-partners.com).

In the constantly evolving global insurance marketplace, UIB is renowned for obtaining the most competitive terms and broadest levels of coverage across all major business lines, from markets worldwide.

We maintain the highest standards of innovation, flexibility and professionalism to deliver effective risk solutions backed by the personal service for which UIB has established an unrivalled reputation.

UIB is accredited by Lloyd's and is authorised and regulated by the UK Financial Services Authority (FSA).
